It's a funny thread, and it could all be true?

David Icke and his fans should read this old article by a rap artist from Costa Rica stage-named "Sirius":

<http://thedoggstar.com/secret-societies/freemasonry-in-hip-hop/run-this-town-satan-hit-2/>

That article has the ONA included in it where the lunatic Sirius says ONA is a part of the Illuminati and is connected with Jay-Z.

Let's hope Mr. Icke talks about ONA in his next book. It'll be cool if this mythos evolves. Somebody should mention that the Dark Gods are replicans from Zeta Reticuli who travel to our solar system to control the elite via acausal wormholes [nexions].

A good example of psyops, maybe, of building the mythos - why even you Chloe rate a mention there now!

That'll make a good plot for a sci-fi novel. Now there's a project for someone here - with 9ers roaming the earth and culling enemies of the elite on behalf of the dark gods.

LOL... that was awful nice of that person to mention me in Icke's forum :)

I would die in utter peace with myself and the State of Israel and the fact that the Liberals are in power in America, if David Icke even mentions my name once in one of his books! That way I can show my friends!

LOL... it does :)

On a serious note though, this real or fake "dichotomy" doesn't apply to ONA, or to anything similar to it.

If we think about it, we all know that such things as the Jedi Knights and the Siths are fake or fictitious creations. But the stories and myths behind those things are so captivating, that they inspire and influence many, many people to make such things real to them. We see people making religions out of the Jedi thing and the Sith thing. Same thing goes for Lovecraft's Mythos. And the same thing went for the story about a secret fraternity of enlightened men called the Fraternity of the Rose+Cross founded by the mythical Christian Rosenkreuz. There are dozens of "Rosicrucian" orders today. Remember all that Rosicrucian stuff began around ~1600 because of a number of Pamphlets. Just like ONA began with a number of "pamphlets."

Same thing with the ancient poems and epic stories that make up the Ramayana and Mahabarata. Not only did they inspire the traditions and cultures of India, but they also inspired the cultures and traditions of Bali, the Khmer, the Thai, and the Lao.

So for me, I don't think it's derogatory or "bad" for someone to claim that the ONA is fake or fictitious.

Either way - fake or real - DM/AL still reaps the reward. The reward either way is that he really did create something inspiring and influential, and that many people make his creation their own personal Way of Life.

Very true, Savage... would anyone believe Bin Laden? No. So why should he waste time on that. Saw this on my wordpress reader this morning: <http://regardingdavidmyatt.wordpress.com/2013/05/28/playing-the-sinister-game/>

Love the post as well. As Chloe said it's funny. But it really made me think about what percent of people really buy 'official' ONA stories or Myatt's denial about his involvement?

Also, I found a clue. That is, I remembered I read this some time ago. This conspiracy nutter might be ONA after all x)

Terror, chaos and dread in cyber-land? Super evil bloggers and admins of Facebook pages? What? Some are really lost in their current cyber roles so much I doubt they can see very clearly anything long-term and relax a bit, when it comes to certain issues. But maybe some conspiracy theorists would see us as so dedicated to our world domination that they will start to talk about it and blow up the story, like they do, beyond any limits of reason. Imagine them running around all paranoid, talking about ONA taking domination over the World with its fanatics infiltrated EVERYWHERE spreading their evil, bringing suffering even when you are not aware of it, with invisible armies of sinister empaths in almost every corner of the World making your days darker, making your wife uglier and more irritating, turning your kids into patricidal monsters addicted to drugs and sex, sucking life out of you, embodying their Dark Gods, of which some are ALREADY HERE, in their human skin, bringing havoc and pain, sacrificing people on a daily basis, spoiling the youth in every country of the world, brain-washing them into doing horrible, unspeakable things for them and to end their lives tragically for the 'cause' of some insane false prophets of the Antichrist him self. There's enough 'evidence' in the real world for the good professional conspiracy theorist and 'independent investigator' to construct colossal conspiracy theory, if not bestselling one, then, at least one to which more and more thought will be given in the future as, hopefully influence of ONA and its forms in the real world continues to grow globally. Maybe ONA should consider hiring one conspiracy theorist to raise panic. David Icke would be sufficiently dramatic and more than able to instill fear

and to brain-fuck people (like he does for his real masters) into submission to 'reality' that WE are running the show and that there's no too much hope, except for them to try to give us 'unconditional LOVE' to see if we will think twice or not before we strike them dead... with our evil super powers from out of this World? Hm? Or it should be considered as some interesting insight task - to become a conspiracy theorist for some period of time spreading new satanic panic with sinister flavour. It's not important if your lectures and books, and your attempts to traumatize everyone you know with scary stories about global ONA conspiracy will be appreciated and recognized only in 10 to 15 years from now, maybe. But, that can even strengthen your conspiracy theory with you being sainted as a visionary or even a prophet inspired by the Divine Providence it self. It's not like ONA never did something similar...

<http://anonymousassociates.wordpress.com/2012/09/08/points-of-no-return/>

Anyway around, it would be really nice if David Icke mention ONA in some of his books. Maybe all of this was just such an attempt? Or maybe someone should approach mr. Icke with the story of his/her involvement with ONA and horrible things they witnessed and extent of conspiracy ONA is up to, all along with reptilian shapeshifters and stuff. Icke loves ex cult members confessions, and this one would even support his theories.. We should all create such character, make up his/her life story, confession and introduce this "person" to Icke?

It's pretty obvious that the person with the username paindivine on the lcke ONA thread is not what s/he seems.

But it makes for a good dialectic, aids the mythos, and helps confuse mundanes.

In this story Chloe should be reptilian mother queen that lay eggs once a month inside corpse of sacrificed newcomer/initiate x)
this can even have it's symbolic value to us. same as this 'nutter' story about myatt who is no longer human being but Satan himself has some symbolic value. Don't you think? :)

I like the inhuman DM theme -- he would be the calm, rustic, unpretentious shell of whatever horrific acausal entity really animates him (a la Deofel Quintet). The story would hint that his esoteric journey has taken him to a stage where intelligence services and governments are as harmless as a hostile kindergarten class. Kind, benign wisdom conceals truly sinister insights, which Numinous Way followers discover only too late (when they too are possessed by similar weird star creatures). Or something. It could be a lot of fun to write.

Oh I love Mr Icke, he is like the Boris Johnson of the occult world, looks like an idiot, acts like

and idiot and when he appears on TV everyone goes " aww bless " throwing pity on him because the cheese has defiantly slid off this guys cracker.

My own personal view is the O9A is very very real, a little too real for some who hide behind their belief that its fake.

I've performed O9A rituals, spoken to O9A members and read O9A texts, so as far as I'm concerned its real, even if I was the only one in this mad world doing it.

I think all here agree the ONA exists, is not fake, and has an influence, especially having influenced the LHP and Satanism.

But so far no one has addressed two issues raised by this post -

<http://www.davidicke.com/forum/showpost.php?p=1061526336&postcount=9>

Which are, what is the "real" nature of the ONA (like as in being really evil) and are those now associating themselves with the ONA (especially via the net) being duped or used by some hardcore "inner" ONA.

Or, are such doubts raised just part of the sinister game being played out in public, part of the O9A's labyrinthos mythologicus? As described here -

<http://lapisphilosophicus.wordpress.com/about-2/ona-faq/labyrinthos-mythologicus/>

I personally don't see Mr Icke as a threat, and going after the guy would be nothing more than amusement. However he is a useful tool, a sustained physical "pressuring" of the man could cause him to write more about us, this hopefully would engage the mundane to write more crap about us, thus spreading more Mis information and give us a little more web presence. Make him a pawn in our game.

If there are those who are willing and able to avail themselves of the quintessential aspects of the Sinister Seven-Fold Way with due discernment (i.e thus endeavoring to, and actually engaging in, concretely, in "real-world evil", "Insight Roles", "Aeonic Insight Roles" and "culling" [whether successful or no in the latter respect, though failure should only increase, not decrease, whatever tumult, and, indeed, tragedy, which one has been exposed to via the effort - which only builds, rather than decreases, genuine Satanic character - and should act as a tangible desire for full "completion" of said ordeal] then those (these days rather diffuse) sectors who "represent" themselves as ONA will indeed truly represent (in a concrete fashion) real, tangible and accessible "evil."

If indeed those subscribing to and/or now associating with the ONA, however ephemeral such subscription and/or association may be, feel themselves to be "duped" or indeed "manipulated" then it would behoove them - as such - to study and indeed, endeavor to practise, concretely, the sort of sinister manipulation, leading up to the practise of "Aeonic Magick" (backed by tangible action, rather than pseudo-intellectual pontification) then those too will find that they themselves have done the necessary to inhabit the status of hardcore, "Inner" ONA via personal (and collective) actions, not words, and thus find themselves upon a platform where the Sinister Dialectic can be realistically forwarded by personal (and collective) deeds, based upon genuine Insight and Satanic Character.

I think all here agree the ONA exists, is not fake, and has an influence, especially having influenced the LHP and Satanism.

But so far no one has addressed two issues raised by this post -

<http://www.davidicke.com/forum/showpost.php?p=1061526336&postcount=9>

Which are, what is the "real" nature of the ONA (like as in being really evil) and are those now associating themselves with the ONA (especially via the net) being duped or used by some hardcore "inner" ONA.

Or, are such doubts raised just part of the sinister game being played out in public, part of the O9A's labyrinthos mythologicus? As described here -

There are a few ONA MSS which explains that some people in ONA are being used. One such instance is in the old time ONA MS called Hysteron Proteron, in an article named "What Is & Isn't Satanism." The relevant part goes like this:

[Begin Quote]

The second example concerns the formation and use of Satanic 'Temples' and groups by a Satanist. A Satanic novice, in order to gain experience of magickal rituals and people manipulation, usually forms a group to perform Satanic rituals. The people recruited are for the most part used – and the novice often assumes a specific Satanic 'role' for this: the role of sorcerer/sorceress. He/she may dress in a certain way and so on, as he/she may use fables to impress and/or manipulate. This, however, for a genuine Satanist, is only a stage – and one which lasts a year or two. After that, experience and mastery of ceremonial and hermetic magick gained, they move on to new challenges and experiences, as all good Satanists should. Further, the individuals of this 'Temple' or group are not Satanists, although they may believe themselves to be – they are simply being used to afford the novice pleasure/excitement/experience and so on. Had any of them any Satanic character or potential, they would rebel to undertake their own quest by forming such a group/Temple' and experience the limits of themselves.

Sometimes, the group has another aim – an Aeonic or suprapersonal one, in which case its life may be extended. But whatever, genuine Satanic guidance by an Adept or Master/Mistress to a novice always occurs on an individualized basis, never within the rigid and constraining form of a 'Temple'.

[End Quote]

So I personally don't doubt that there may be groups of people in ONA who are using people or are being used.

But this using and used thing is unfortunately a two way street. Nothing is stopping non-ONA people from using ONA for their own egotistic ends. Such as the case with Interrogist:

<http://www.lulu.com/shop/darryl-hutchins/interrogistic-methodologies-volume-one/ebook/product-21044227.html;jsessionid=C0A6931683947BA086A18670366CF300>

<http://www.satanicinternationalnetwork.com/forum/topic/4126?page=1>

You'll see he uses the brand "ONA," and even the symbol but he has this to say about ONA:

[Begin Quote]

I am Dedicated to the ONA?

How so? By demonstrating the foolishness pertaining to the use of mythos and make-believe in this technological age of 2013? Ok then?

Inspired by the ONA?

Really? If by inspired you mean that I recognize like minded individuals and resonate with a few of their ideas and goals? Sure?

Focused on the ONA?

By challenging the leaders of outdated nexion, by presenting the ONA Interrogist Union, and by persisting in the face of rejection and misunderstanding?

source: <http://www.satanicinternationalnetwork.com/forum/topic/4088?page=2#post-63200>

[End Quote]

The ones who are really duped would be the ones who believe and consider people like Blackwood, Venger, and Interrogist to be ONA.

I would also say that most of the talk of people in ONA being used and duped is part of the Labyrinthos. It's useful in that it makes people think twice before becoming ONA. It acts as a filtering system. I don't see the harm in using the rhetoric. Like ONA says, if the individual is genuinely ONA, they will figure things out, leave any nexions or temples using them, and start their own and dupe people themselves.

Mr. Icke is not a threat, at all. But if someone is willing to try and use him as a resource, at least shouldn't underestimate him. He's not stupid, however his stories sounds to some. So if anyone is capable of manipulating David Icke into writing about ONA in whatever contest, must be true manipulator and must go to the end. Even to agree with face to face contact with Icke and live 'confession', and to play their role of cult victim to the fullest. So, all of this is just an amusement if just taken lightly. But if anyone is capable of playing their role perfectly we can even think about pulling this off. If nothing else it might be really amusing to try and manipulate into doing things for us, especially if he is master manipulator himself, as he probably is.

If he is a manipulator, question is what are his true motives? There are strong indications that he even belongs to Masonic Lodge, and yet he is talking against masonry. Same as this 'painless' guy is probably ONA ranting against ONA, while playing his/her role of conspiracy christian nutter, manufacturing myths for newbie satanist who might be interested

in ONA, or even trying to manipulate Icke along the way, in the similar manner to what we are discussing here for past few days.

I personally don't see Mr Icke as a threat, and going after the guy would be nothing more than amusement. However he is a useful tool, a sustained physical "pressuring" of the man could cause him to write more about us, this hopefully would engage the mundane to write more crap about us, thus spreading more Mis information and give us a little more web presence. Make him a pawn in our game.

Thank you too Chloe, for this is also helpful to some extent when it comes to playing sinister games, manipulating etc.

ABG Lodge, for example, has a threefold purpose: 1. to serve as Zorya's learning experience in form of outer temple which is used for manipulation and disruption online and in real life; 2. To share insights with true ONA initiates, to help evolve our Ways and add to ONA charisma and mythos; 3. To recruit worthy candidates for our inner Nexion which has its Aeonic purpose and where guidance is given on personal basis, where attitude toward many things even related to ONA are somehow different than presented via outer temple, and where all of this merges with life itself, with our family that our inner nexion is - something you cannot put on wordpress even if you try hard.

Agreed. We could talk of three groups, namely (1) an Inner ONA, (2) genuine ONA associates, (3) ONA pretenders.

All three arguably exist and are part of the sinister dialectic, though on radically different levels.

Besides, there is no such thing as "bad" press, so even the pretenders are still useful as kindling to start fires.

I think the best press the ONA's gotten recently is from those 'nightingale' novels by Stephen Leather and those order of nine "angels" books by Conrad Jones.

Combined sales - over 100,000

Shame then that the impression most ONA blogs and sites give is not of an evil international organization :)
